

Children and Young People's Health and Well-being in the Castleford Locality

A Public Health summary report of the Health Related Behaviour Survey 2013

Wakefield District Public Health team have been using the Health Related Behaviour Survey every two years since 2009 as a way of collecting robust information about young people's health and lifestyles. This latest survey was undertaken in the spring term of 2013.

The content of the survey has been widely consulted upon and tailored for Wakefield District's needs. Three separate versions of the survey have been used with age appropriate questions as standard.

This report is based on the primary and secondary survey results from 355 Year 5 and Year 9 pupils living in the Castleford Locality of the Wakefield District. Separate reports are available for the other locality areas across the District alongside the District Wide and FE reports.

Teachers were briefed on how to collect the most reliable data by Schools Health Education Unit staff. Surveys were completed anonymously either online or on paper. Each of the schools has

its own report comparing their results to the combined sample for schools in their age phase.

Cross-phase data and analysis

Where possible, responses have been cross-analysed and presented to highlight similarities and differences in behaviours between groups. Furthermore, some of the primary and secondary questions are identical or very similar allowing for comparison across the age range.

3416 young people were involved in the survey:

| School Year Age | Castleford Locality | | Wakefield District | | Total |
|-----------------|---------------------|--------------|--------------------|--------------|-------|
| | Year 5 9-10 | Year 9 13-14 | Year 5 9-10 | Year 9 13-14 | |
| Boys | 64 | 117 | 531 | 1145 | 1676 |
| Girls | 56 | 118 | 499 | 1241 | 1740 |
| Total | 120 | 235 | 1030 | 2386 | 3416 |

This is one of a set of 7 Locality reports. A separate overall Wakefield District wide report is available to accompany this set. Castleford data have been compared with the overall Wakefield District dataset, shown in brackets () in this report.

The Way Forward – over to you

This work was commissioned by the Public Health Team in Wakefield Council (previously in NHS Wakefield). We are grateful to the teachers, schools and young people for their time and contributions to this survey. As a result we have excellent information to be used by schools, Wakefield Council and other relevant health, statutory and voluntary agencies. This work ensures local children and young people are listened to and their needs inform service provision, resource allocation and programme planning.
